Professional Standards Section shall maintain inspection files and reports.

Background

The Chandler Police Department recognizes the current Arizona statutory law dictating that “no unnecessary or unreasonable force shall be used in making an arrest, and the person arrested shall not be subjected to any greater restraint than necessary for his detention.”¹ The Chandler Police Department stipulates officers must adhere to their training unless the situation justifies a deviation from that training.²

The Chandler Police Department began to utilize the Use of Force Review Board in 2008 to ensure the proper documentation of all applications of force, evaluate those applications for adherence to established policy, and determine any additional training needs.³ The board meets monthly to evaluate the prior month’s incidents, and quarterly reviews are prepared to share information and findings with the Citizen Review Panel.

This analysis contains use of force statistics for the third quarter of 2023 to identify prevalent trends or deficiencies per the current CALEA standard.⁴ In addition to an internal comparative analysis, this report will illustrate training issues that emerged throughout the quarter, as well as the number and general nature of injuries sustained by personnel and suspects.

2023 Third Quarter Review

The Chandler Police Department logged 2,019 arrests during the third quarter of 2023, yielding a total of twenty four (24) incidents resulting in a use of force by Chandler Police Officers to effect an arrest or detain a subject under reasonable suspicion or probable cause.

All reportable incidents were reviewed by the Use of Force Review Board. This board meets monthly to determine if the applications of force are justified in accordance with the policies of the Chandler Police Department.

The following tables document the twenty four (24) incidents reviewed by the board for the months of July, August, and September of 2023. It includes the types of force used and dispositions. In some incidents there were multiple applications of force used by various officers. For this reason, there were thirty five (35) distinct applications of force.

Type of Force Used Third Quarter 2023

Force Used	Applications	Additional Details
Low Level Force	19	Take downs, pressure points, Hard hands, bolo wrap, etc.
Intermediate Force	16	K9 bite, fist strikes, knee strikes, kicks, less lethal, CEW, impact push, etc.
Total	35	

Total Force Used Third Quarter 2023

Total Arrests	Force Used	Percentage
2091	24	1.15 %

Use of Force Demographics by Race/Gender/Age

Number	Race	Gender	Age Range	Average Age	%
8	White	Male	18-51	33	33%
2	White	Female	22-41	32	8%
2	Black	Male	22-39	31	8%
10	Hispanic	Male	23-53	39	42%
1	Hispanic	Female	63	63	4%
1	Native American	Male	22	22	4%

(24 total subjects in use of force incidents)

Policy Violations/Reviews

In the third quarter of 2023 there were no use of force incidents referred to Internal Affairs.

Training Issues

In the third quarter of 2023 there were no training issue identified by the Use of Force Board.

Injuries

In the third quarter of 2023, three (3) officers were injured during use of force incidents. The injuries sustained by officers were mostly minor in nature, generally consisting of sprains, abrasions, cuts, or bruising. Most of the officers' injuries appeared to stem from body-to-body contact, takedown techniques, and struggling to handcuff suspects on hard surfaces or from direct assaults on the officers themselves.

Seventeen(17) suspects were injured or complained of injury during the use of force incidents. Most of these injuries were minor in nature, consisting of lacerations, abrasions, contusions, complaints of pain, and CEW puncture wounds.

Injured officers and suspects received medical attention when requested. Medical treatment was either provided on scene or at a hospital for more extensive care or evaluation.

Total Injuries When Force Used Third Quarter 2023

Suspects/Detainees	Officers	Total
17	3	20

Emotionally Disturbed/Impaired

Seventeen (17) subjects involved in use of force incidents were found to be emotionally disturbed, under the influence of alcohol or drugs, or a combination of impairments.

Conclusion

The reported types of use of force incidents during the third quarter of 2023 indicate officers used the appropriate level of force to effect the arrest of suspects. This illustrates that the use of force policy, defensive tactics training, board reviews, and overall departmental philosophy are aligned with established case law, statutory regulations, and the principles of community-oriented policing.
